Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 March 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 34-37, and 39-41 are rejected under 35 U.S.C. 102(e) as being anticipated by Gambale et al. 6,432,126. Gambale et al. discloses the invention as currently claimed comprising: a scaffold (10, 42, 60, 91, 130) structure implantable within in tissue, the scaffold having a geometry adapted to be retained within the tissue (see figures 5a-5d, 7a-7b 8d-8e, 9a-9b); the scaffold structure being configured to mechanically trigger and injury response in the tissue that leads to angiogenesis in the tissue (see col. 3, lines 35-36); thrombus associated with the implant (see col. 3, lines 39-42), the thrombus being loaded with a therapeutic material (col. 3, lines 43-45 state that "...in addition to a thrombus of blood, the implant device may be preloaded with an angiogenic substance.." and this angiogenic substance is the therapeutic material and with regard to claim 37, a growth factor). Whereby the thrombus provides a host matrix for the therapeutic material; wherein the thrombus can be loaded within an interior chamber of the scaffold (see col. 12, lines 39-41).

Allowable Subject Matter

4. Claims 38 and 42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 3/23/06 have been fully considered but they are not persuasive. Applicant contends that there is no suggestion of a therapeutic substance or a therapeutic substance loaded into thrombus because the angiogenesis substance is not a thereapuetic substance as described in Applicant's specification. The examiner disagrees because the term "therapeutic substance", as known and used in the art of medical treatment devices, covers a broad range of materials and substances as long as a therapeutic benefit is provided. Angiogenesis substances provide a therapeutic benefit, and Applicant has not explicitly defined the term therapeutic substance to exclude angiogenesis substances. Furthermore, angiogenesis substances promote growth and therefore meet the limitation of claim 37 (the therapeutic material comprise a growth factor).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3738

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
